SALTY TURTLE

Introducing Dry Salt Therapy

The HaloIR is the first sauna to offer a synergistic combination of an Infrared Sauna and Dry Salt Therapy. It was created to engage all 5 senses for a truly transformative experience.

Dry Salt Therapy involves breathing in air infused with tiny, pharmaceutical-grade salt particles. It's considered a natural treatment for respiratory and skin conditions. **The Infrared Sauna** is a therapy that uses invisible light wave that heat the body which in turn soothes muscles, increases blood flow, and promotes relaxation.

Benefits

- Improves Respiratory Wellness
- Improves Immune Resilience
- Promotes Detoxification
- Relieves Muscle Tension & Stress
- Helps Relieve Skin Conditions
